CHRYSNBON Furniture and Accessory Mini-Kits

This selection of Mini-Kits offers accessories to complement almost any room setting. Each piece is a perfectly detailed reproduction, scaled 1" to 1' in polystyrene, with the same quality you find in all Chrysnbon kits. Assembly requires minimum effort and no expensive tools, with easy-to-follow instructions included in each kit. Remove parts from plastic "trees" carefully and trim "flash" (excess plastic) where necessary. We suggest a tube type styrene cement for assembly.

Chrysnbon Kits come on plastic runners and are easily assembled with plastic cement.

DOL DOLL DOMICILES

Antebellum Plantation Plans
DOL 010
Size: 7"x 11-1/2", plastic envelope
By: Jack E. Cavender
Complete architect's working plans and details for making a beautiful Louisiana plantation are included in this selection. The mansion contains eight rooms and central halls, fondly reminiscent of the grandeur of the pre-Civil War South.

Cape Cod Dollhouse Plans
DOL 020
Size: 7"x 11-1/2", plastic envelope
By: Jack E. Cavender
Complete architect's working plans and details to construct the Jabez Wilder house in Massachusetts are included in this package. There are two hinged side panels for access to rooms not exposed to the open rear.

New England Saltbox Plans
DOL 030
Size: 7"x 11-1/2", plastic envelope
By: Jack E. Cavender
Make an adaptation of the Deming House in Connecticut, mid 18th century, using the complete architect's working plans in this package. Two side panels hinge to provide access to the four rooms not exposed by the full open rear.

American Farmhouse Plans
DOL 040
Size: 7"x 11-1/2", plastic envelope
By: Jack E. Cavender
Use the complete architect's working plans and details to make this adaptation of an actual mountain farmhouse in North Carolina. Built in 1920, the original featured a large porch around three sides, window planter boxes, four large rooms, bath, and hallways under a "tin" roof.

Wedding Cake Victorian Plans
DOL 060
Size: 7"x 11-1/2", plastic envelope
By: Jack E. Cavender
Complete architect's working plans and details are included in this package to make a period composite design Victorian house. Full-size patterns are provided for the decorative filigree that gives this style its charm.

DOL DOLL DOMICILES

Second Empire Victorian Plans
DOL 070
 Size: 7"x 11-1/2", plastic envelope
 By: Jack E. Cavender
 Create a magnificent, miniature mansion using the complete architect's working plans included in this package. There are three hinged side panels for easy access to all areas. High ceilings and large rooms provide a grand setting for the finest furnishings.

Georgian Dollhouse Plans
DOL 090
 Size: 7"x 11-1/2", plastic envelop
 By: Jack E. Cavender
 Build a miniature house inspired by the 18th century residences of Savannah, Georgia, the complete architect's working plans included in this package. The design reflects the simple dignity of the Georgian style.

Firehouse Plan
DOL 110
 Size: 7"x 11-1/2", plastic envelop
 By: Jack E. Cavender
 A fireman's pole and second floor bunk and living area featured in this plan to build a delightful miniature firehouse. Use the complete architect's working plans to construct this two story house which also includes a stable area on the first floor.

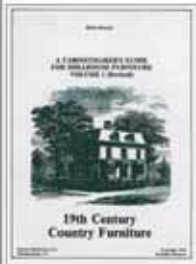

Colonial Williamsburg Plans
DOL 120
 Size: 7"x 11-1/2", plastic envelop
 By: Jack E. Cavender
 Complete architect's working plans and details to construct the Josias Moody House, circa 1699 - 1780. Four large rooms with a fireplace in each room, foyer and stairway.

English Tudor Dollhouse Plans
DOL 140
 Size: 7"x 11-1/2", plastic envelop
 By: Jack E. Cavender
 An adaptation of an English townhouse of the Seventeenth Century. Consists of four large rooms with wide entry hall and staircase.

MICA-BLEND *Tile Grout Color Choices with Spacers*

How to Select the Right Grout

Selecting the right grout adds the finishing touch to the overall appearance of your tile installation. The color you choose can dramatically affect the look and feel of your tile, making the selection of grout just as important as picking the right tile.

Color Selection

After choosing your tile, the next step is to decide what effect you want. There are two schools of thought when it comes to picking out a grout color. One is Tone on Tone, which means selecting a grout color that is a close match to the tile. The grout then acts as a background and creates a more uniform look. You can also choose a shade or tint slightly different from the tile color which will give your installation more depth and interest.

On the other hand, if you prefer to emphasize each tile, you would choose a grout that is a contrast. The grout then acts as a frame for the tile, giving each one an individual look and the installation a grid effect.

QUICK BUILD™

Dollhouse Kits

When only the best will do, but it has to be convenient and affordable, QuickBuild is the answer! With parts constructed of sturdy, cabinet-grade materials, you will be proud to showcase these houses in your home and pass them to future generations. And, they go together in minutes! Only a screwdriver (for some) and white glue are required with simple instructions included. The finishing is even done for you. Exteriors are painted or stained, roofing and floors are installed and finished, wallpapers (where shown, may vary) are applied and windows, moulding, doors and shutters are hung. Finishing touches vary, so take a look at the houses!

DOLLHOUSE KITS

**Not all Walmer items are pictured.
See pricelist for additional items.**

Just what the hobbyist, collector, or miniature enthusiast is looking for—collector-quality dollhouse kits that are affordable and easy to assemble. There are so many options for customization, even the experienced collector will find them exciting and challenging! Lilliput dollhouses are sturdy and durable because they are constructed from 3/8" and 1/4" high-quality, cabinet grade plywood, and are assembled using nails and glue. They are designed according to the industry-standard 1" = 1' scale, so most miniature furniture and accessories fit perfectly. Once the basic kit is built, the creative fun begins. Expand, upgrade, and customize with Lilliput wings and siding & shingle packages especially designed for each house. The siding & shingle packages include all the trims you need. And, as a decorative finish, choose from a variety of finely-detailed Designer Home™ custom architectural components, elegant lighting fixtures, and tasteful accents.

Razor Saws, Blades and Sets

Saber Saw Set for internal and scroll cutting

ZON35450 Saber Saw Set

The .022" thick blade with a cutting depth of 4-1/2" is ideal for larger inside cuts and for cutting through thick material including styrofoam and other soft materials. This set also includes the ZON36408 "push" and the ZON36406 "pull" miniature keyhole saber blades. All blades are attached with wing nut and screw.

ZON36406 Saber Saw Blade
(3/8" x .022" x 24tpi x 2-1/4")
Teeth cut on "pull" stroke
with 1-3/8" cutting depth.

ZON36408 Saber Saw Blade
(3/8" x .022" x 24tpi x 2-1/4")
Teeth cut on "push" stroke
with 1-3/8" cutting depth.

ZON36458 Razor Saw Blade
(3/8" x .022" x 24tpi x 5-1/4")
Teeth cut on "push" stroke with
4-1/2" cutting depth.

ZON35251 Combination Mini-Miter Box and Razor Saw Set
Set includes: ZON35250 Mini-Box and ZON35200 Razor Saw with 32
teeth per inch and 4-1/2" long blade.

This combination Mini-Miter Box and Razor Saw cuts square ends,
perfect splices, angled and mitered corners. The miter box has an
adjustable stop and beveled channel for tubing and dowels. Cuts
pieces up to 1-1/2" wide.

ZON35100 Razor Saw Set (3 in 1 Set)

This versatile set is great for all kinds of cutting. Includes three popular
interchangeable blades ZON36119 Razor Blade with back (4-1/2" long blade
with 32tpi), ZON36129 Razor Blade with back (4-1/2" long blade with 24tpi)
and the miniature ZON36408 "keyhole" saber blade. The
ZON36406 "pull" style "keyhole" blade and ZON36458 saber saw blade
can be used with this set.

ZON35260 Aluminum Miter Box
Aluminum miter box for use with ZONA
razor saws ZON35300, ZON35350,
ZON35500 and junior hack saws
ZON35600, ZON35650, ZON35680 to cut
square ends, perfect splices and angled
or mitered corners. Holds material up to
1-3/4" wide and 3/4" thick for 90° & 45°
cuts. Overall length 5-1/2".

ZON35400 Flush Cutting Saw
(16 teeth per inch, 6-1/2" long, .012" thick blade, 1-1/4" width)
The teeth on this flexible blade have no set so they will cut dowels,
pegs, and plugs off flush without marring work surface. Can also
be used for cutting through tenons and excess trim in joinery and
hard to reach spots. Cuts on "pull" stroke.

ZONA Razor Saws are ideal for model making
and other home/shop hobbies. These saws make
straight, accurate cuts with smooth edges in wood,
plastic and metal.

All ZONA saws have:

- Razor Sharp Teeth
- Extra Stiff Steel Backs
- Comfortable Wood Handles
- High quality, polished steel blades
in thicknesses from .008" to .020"
- Made in U.S.A.

Wood and Metal Cutting

ZON35500 Universal Razor Saw
(32 teeth per inch, 6-1/2" long, .010" thick blade)
1-3/16" cutting depth.

A good all purpose saw for model making and wood working. The
.010 thick, 32 teeth per inch blade will cut balsa and other wood, plastic,
copper or brass and leave a smooth edge. The 1-3/16" cutting depth
makes it suitable for cutting most shapes and thicknesses.

ZON35200 '32' Razor Saw
(32 teeth per inch, 4-1/2" long, .008" ultra thin blade)
1/2" cutting depth.

ZON35150 '42' Razor Saw
(42 teeth per inch, 4-1/2" long, .008" ultra thin blade)
1/2" cutting depth.

The thinnest razor saws available with ultra thin .008" thick blades. The
ZON35150 has a 42 teeth per inch blade for super fine cuts in wood and plastic
without splitting, chipping or ragged edges. The ZON35200 has 32 teeth per
inch for longer wear in metal cutting applications. Both saws have shorter cut-
ting depth plus steel backs for greater blade stability.

ZON35050 '52' Razor Saw
(52 teeth per inch, 4-1/2" long, .008" ultra thin blade), 1/2" cutting depth

Wood and Metal Cutting

Wood Cutting

ZON35300 '24' Woodcraft Saw
(24 teeth per inch, 6-1/2" long, .015" thick blade)
7/8" cutting depth.

An excellent saw for cutting hard and soft wood. Perfect for making small picture
frames, shadow boxes, doll house parts and fine dovetails in
cabinetry work. The .015" blade with 24 teeth per inch cuts straight
and leaves a smooth finish.

ZON35350 '14' Woodcraft Saw
(14 teeth per inch, 6-1/2" long, .022" thick blade)
1-11/16" cutting depth.

Like the ZON35300, this saw is also ideal for many wood cutting applications
including trimming, flush cutting and dovetailing. The 1-11/16" cutting depth
makes it the deepest cutting of all the ZONA razor saws. The .022" thick blade
provides extra stability and cuts on the "pull" stroke.

ZON35380 '14' Dovetail Saw
(14 teeth per inch, 8" long, .022" thick blade)
1-3/4" cutting depth.

ZON ZONA™ Razor Saws, Blades and Sets
